

TU II TERMINATION UNIT II

This device is for the INTREPID™ MicroPoint™ II, MicroPoint™ POE-S, MicroNet™ II and UniZone Fence Detection Systems. The Termination Unit II (TU II) provides a fast and low cost method of terminating the MicroPoint cable (MC115 or MC315) and detection process. The MicroPoint cable is landed and terminated in the TU II.

It includes the termination unit circuit board, NEMA 4X plastic outdoor weatherproof enclosure, dielectric grease and cable ties for mounting and terminating the MicroPoint cable. The MicroPoint cable is inserted through the gland in the bottom of the enclosure and connected to the open terminals on the terminal strip. The termination of the MicroPoint cable is the same as on all the other modules. The dimensions of each enclosure (not including fittings and tabs) are 4.53" x 3.54" x 2.17" (115 x 90 x 55mm) with horizontally oriented mounting tabs. It weighs 1 pound (.45kg).
